Cyret Technologies becomes Oracle Gold Partner

Pune, February 2010

Cyret Technologies has attained Oracle Gold Partner membership level, under the Oracle PartnerNetwork program. As an Oracle Gold Partner, Cyret intends to continue its growth as a leading technology consulting and outsourcing organization, providing comprehensive Oracle applications, middleware and database solutions.

The Oracle Gold Partner level allows Cyret to develop specialization using Enablement 2.0 tools, which includes online trainings and onsite boot camps. Oracle Enablement 2.0 training resources would allow Cyret to attain specialized status across an initial list of more than 35 different Oracle application, middleware, database or industry solution areas.

The new Oracle Gold Partner level status will allow Cyret to broaden its solutions portfolio and sales opportunities, besides build its credentials to become specialized and increase customer retention. With access to Oracle's premier products, technical services, education, and marketing and sales support, this new development will help Cyret gain expertise across Oracle solutions, towards becoming a differentiator for its clients across various industries.

Cyret will have improved capabilities in providing pioneering enterprise-solutions, which is backed by a strong and specialized team of certified experts, at its offshore development centers in Pune, Hyderabad and Chennai and offices in United States, South Africa, Philippines, India and UAE. Strengthening our technical expertise and product knowledge, the new Oracle Gold Partner level will help Cyret meet customer needs and deliver superior business solutions.

Oracle PartnerNetwork is a global business network of companies who deliver innovative solutions based on Oracle software.
